## QUIK-SHIELD® 108YM

THE YIELD MONSTER

QUIK-SHIELD® 108YM is an industry leading high yield product with revolutionary expansion and long-range application. With an ultra-low density of 0.36 there is no other foam that truly can be called a Yield Monster.

“

*I use QUIK-SHIELD® 108YM over the competitor's foam not only for the outstanding yields but also because it is easy to dial-in and very easy to spray. It definitely has helped us as a company become more productive with less downtime from being able to spray it at high lifts in one pass.*

*Photo and Testimonial by  
SPF Contractor in California with 25 years of  
experience*

*Has been spraying 108YM since release*
